

# Shull Elementary School Reading Masters Program

Book Awards (1<sup>st</sup> thru 5<sup>th</sup> Grade)

Students need to remember that they should read within their ZPD. To earn an award, a student must average 90% correct for the qualifying books in the category. Books must be read from January of the previous school year through the next school year. Awards may not to be repeated unless a book series has been added. Teachers will help students print a summary of the books read and the student may highlight the books, quiz results, and bring the list to the front office.
